We have just two questions for you.

Informed Consent Form: Teaching About Reptile Caretaking

Lead Researchers: Megan Spielberg, Valentino Clerx

Institution/Organization: Arctic Operations, Dogfood Studios, Fontys Hogeschool ICT

1. Introduction & Purpose

You are invited to participate in a research study involving reptile-themed education. The goal of this study is to examine how different ways of learning elements affect Learning and Player Engagement.

2. Study Procedure If you choose to take part, you will first complete a short questionnaire before starting on learning about reptile caretaking consisting of 10 multiple choice questions, assessing your knowledge. You will then learn about reptile caretaking for approximately 10 minutes. During learning, your actions, such as clicks and progression, will be recorded automatically. After finishing, you will complete a second short questionnaire about your knowledge and experience consisting of 10 multiple choice questions and 14 Likert scale questions about your experience. The overall experiment will take up to approximately 20-30 minutes.

3. Data Collection & Confidentiality

During the study, information such as your questionnaire responses and interactions will be collected. This includes your answers to the questionnaires, as well as data about how you interact with the learning solution, such as clicks, timestamps, and progression. All collected data will be treated confidentially. Your data will be stored using a numeric ID, and your name will not be linked to your responses in any reports or publications. The data will be securely stored and may be used for future research purposes.

4. Risks and Benefits

There are no known risks associated with participating. While there are no direct personal benefits, your participation will contribute to research on learning through digital experiences.

5. Participant Rights

Your participation is entirely voluntary. You are free to withdraw at any time, for any reason, without any negative consequences.

6. Contact Information

If you have questions about this study, please contact: v.clerx@student.fontys.nl

If there are any complaints about this study, please contact: w.boendermaker@fontys.nl

Select what matches you the best *

- ☐ I confirm that I am 16 or 17 years old, and have read and accepted the consent form
- ☐ I confirm that I am 18 years or older, and have read and accepted the consent form

Personal Data

Please fill in the following general information.

How old are you? *

☐ 18-24

☐ 25-34

☐ 35-44

☐ 45-54

☐ 55+

What gender are you? *

☐ Female

☐ Male

☐ Non-binary

☐ Prefer not to say

Your experience with reptiles

This section serves as a baseline measurement for your knowledge on reptile caretaking. Please fill in the answers as honest as possible and do not cheat. If you don't know the answer, that is totally fine and you can choose to answer so.

What is your full name? *

How much do you know about reptile caretaking? *

- ☐ Very little
- ☐ Little
- ☐ Moderate
- ☐ Much
- ☐ Very much

Have you ever kept a reptile? *

- ☐ Yes
- ☐ No

If you have kept a reptile, what species was it?

Knowledge Quiz

Which of the following describes the natural diet of a Leopard Gecko? *

- ☐ A variety of fruits and insects
- ☐ Exclusively insects
- ☐ A mix of leafy greens and insects
- ☐ Small rodents and vegetables
- ☐ I don't know

What is the primary reason for meal variety? *

- ☐ To prevent the gecko from becoming overweight
- ☐ To ensure easy digestion
- ☐ To increase the gecko's water intake
- ☐ To provide a wider range of nutrients
- ☐ I don't know

What is the secondary reason for meal variety? *

- ☐ To provide mental stimulation to the gecko
- ☐ To encourage daytime activity
- ☐ To help the gecko shed skin more easily
- ☐ To improve the gecko's vision
- ☐ I don't know

What medical condition is most likely to develop if a Leopard Gecko lacks sufficient calcium? *

- ☐ Metabolic Bone Disease
- ☐ Cellulose Toxicity
- ☐ Respiratory Infection
- ☐ Impaction
- ☐ I don't know

What are the components of the recommended substrate for Leopard Gecko enclosures? *

- ☐ Pure calcium sand
- ☐ Paper towels and ceramic tiles
- ☐ Bark, Moss and river stones
- ☐ Topsoil, sand and clay
- ☐ I don't know

How often do adult Leopard Geckos typically shed their skin? *

- ☐ Every 1 to 4 weeks
- ☐ Every 4 to 8 weeks
- ☐ Every 8 to 12 weeks
- ☐ Every 12 to 16 weeks
- ☐ I don't know

Which of these is the recommended placement for a heat lamp? *

- ☐ In the middle of the enclosure for even heat
- ☐ Directly over the water dish
- ☐ Directly over the basking stone
- ☐ Inside a cave
- ☐ I don't know

What is the function of providing a cave? *

- ☐ To make the terrarium look nicer
- ☐ To help the gecko catch prey more easily
- ☐ To provide a secure hiding spot
- ☐ To provide a spot for the gecko to digest food
- ☐ I don't know

What is the recommended frequency for using supplements with young geckos? *

- ☐ Every feeding session
- ☐ Once every three feeding sessions
- ☐ Once a week
- ☐ Only when the gecko is shedding
- ☐ I don't know

In the terrarium, what is the primary function of placing a flat stone? *

- ☐ To help with the gecko's heat regulation
- ☐ To serve as a hunting point
- ☐ To absorb excess moisture from the air
- ☐ To provide nutrients to the gecko
- ☐ I don't know
